

data sources, such as administrative data, for some of the additional data types requested. We are currently working to streamline the questionnaire and make it more user friendly. We recognize that the time it takes operators to fill out the questionnaire varies depending on the complexity of the operator. While it takes some longer than the average 30 minutes, there are many operators for whom it only takes approximately 10 minutes to complete the questionnaire. Texas DOT also suggested an Excel format for the questionnaire, where the responses can be directly loaded from the sheet to the instrument, and we will discuss this option with our IT team. We greatly appreciate the suggestions and comments provided by Texas DOT and taking the time to help improve the NCFO.
